

# ***HOW TO GRADUATES***

***MUHAMMADIYAH UNIVERSITY OF PONOROGO***

**PRESENTATION**

in **“INDONESIA NATIONAL TRACER STUDY NETWORK”**

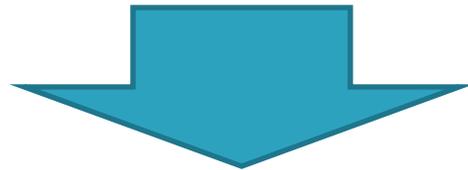

**BALI, 27-28 NOVEMBER 2015**

# PRELIMINARY

Tracer Study is an effort to search or trace tracking of graduates conducted by university to know the outcome of graduates as a form of transition from University to the world of work.

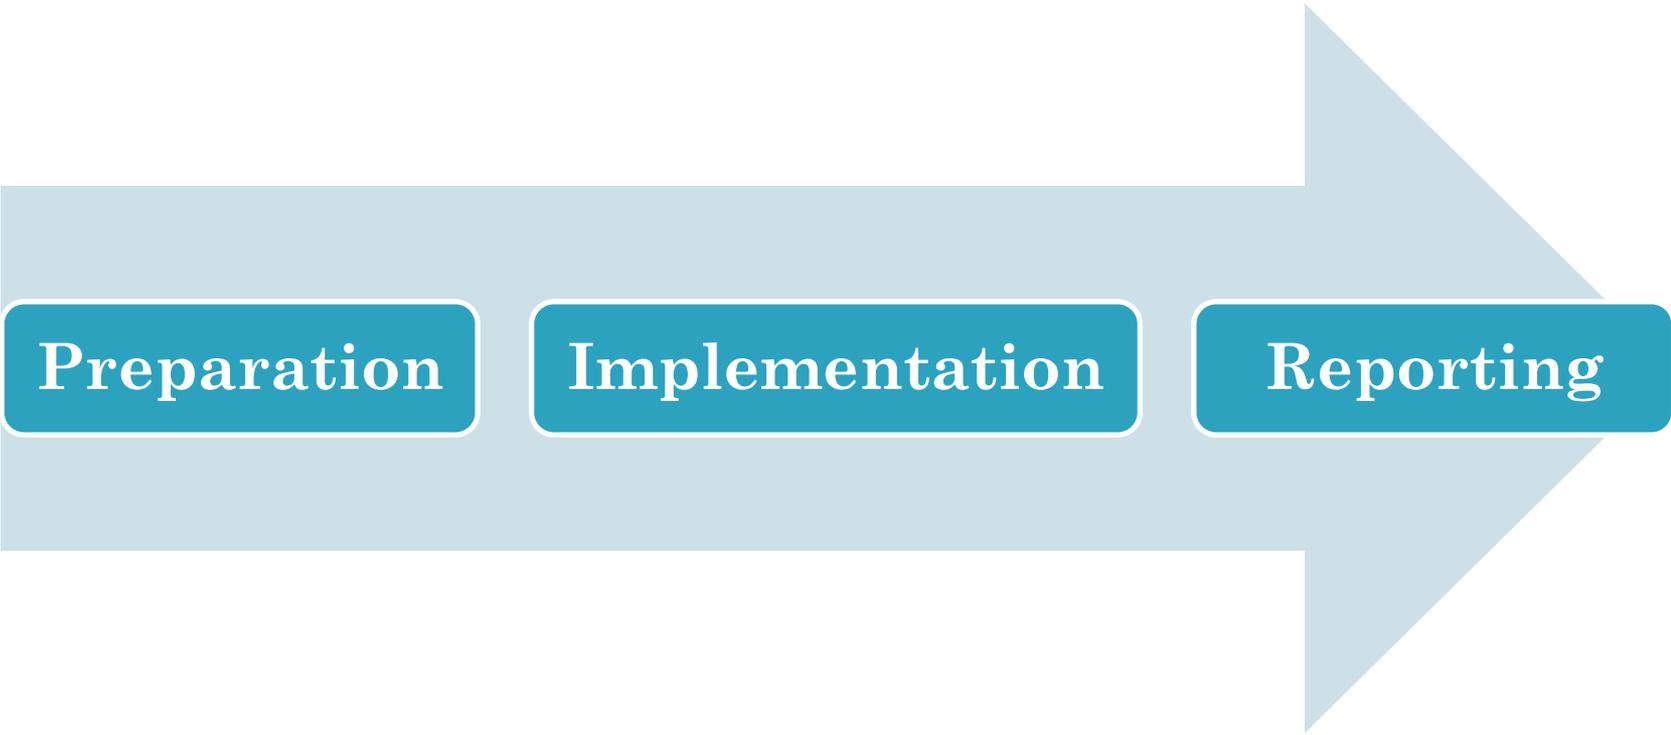

The study is expected to provide a description of how to the process of searching the first job, employment waiting period, the employment situation and the perceived competence of graduates in the working world.

By implementing a tracer study, Muhammadiyah University of Ponorogo able to know the output of education provided, thus able to gave a self-assessment of the learning process has been implemented.

3. There is still a gap between the contribution of university to the competence of graduate after graduation
4. Tracer Study is very helpful University to know the graduate transition from education to the world of work that needs to be improved further to promoting the activities of this tracer study to prospective graduates

**Thank You for Attention**

A perspective view of a modern building corridor. The corridor is flanked by dark grey buildings with white columns and yellow horizontal accents. Palm trees are planted in small green patches along the walkway. The sky is bright blue with light clouds. The text "Thank You for Attention" is overlaid at the top in yellow.
